

PLAIN TILE STRETTO

OUR ROOFING SOLUTIONS

edilians.eu

MEASURE ALL
THE BENEFITS OF ITS

XXL
FORMAT

STRETTO is the new large format plain tile.

Our response to architectural demands for better aesthetics with improved performance at low roof pitches and claddings.

Its XXL dimensions offer speed and ease of installation to enable a cost-effective clay plain tile solution.

All the reasons to give a new dimension to your projects ...

- ➔ Faster installation time for improved productivity : 25 to 27 tiles /m² depending on the gauge
- ➔ Exceptional mechanical strength
Thanks to the quality of the clay of St Germer de Fly and high temperature firing, STRETTO offers unique robustness

- ➔ Superior wind-driven rain performance enabling 21 degree minimum pitch
We have a patent for our unique anti-capillary and water channel system
- ➔ Ideal for new constructions
